Thank you Mr. Drouin for the opportunity and thoughtful email.

I have copied the members of my team as we all have collaborated passionately on your project.
Marie-Christine (our muse) and Vincent (our leader and strategic planner) were definitely critical members of the creative and logistics team.

It was a labor of love for everyone, I have to thank our contractor (Cama) and his team of professionals who worked tirelessly and did manage to do miracles in a very short period all without compromising on quality. And the Ritz Residence team who helped keep things running smoothly (even at the intense manner we dominated these of their freight elevator) over the last few months.

We are very excited about the next chapter where every last detail will come together to make you and your family a wonderful home.

Best wishes of health and happiness for 2017 and hope to see you soon.

Patty, Jessica

As you know, I just moved in and am very pleased with the result. You and your team have done a wonderful job! This is a great space but it required a solid dose of creativity at attention to detail, which, with the help of Marie-Christine and the input of Vincent, you managed to make a masterpiece. I have dealt with many firms like yours in my life, and you definitely come on top in terms of quality of all selections as well as pace of execution and respect of constraints in terms of budget and timing. Thanks you for your involvement, you will have

contributed to making this space unique in Montreal for myself and family to enjoy for years to come.

Encore une fois – merci!

PS Thanks also for the magnificent bottle of Champagne!
